Project No.: M34.118698

- Task 1 – West Newton Township (2019)
- Task 2 – Ridgely Township (2019)
- Task 3 – Lafayette Township (2020)
- Task 4 – Bernadotte Township (2020)
- Task 5 – Brighton Township (2021)
- Task 6 – Courtland Township (2021)
- Task 7 – Nicollet Township (2022)
- Task 8 – Granby Township (2022)
- Task 9 - New Sweden Township (2022)
- Task 10 – Lake Prairie Township
- Task 11- Traverse Township
- Task 12 – Oshawa Township
- Task 13 – Belgrade Township

March, 2023

- Project Update
 - 980 Section Corners have been found and assigned county coordinate values on them.
 - It is estimated there are close to 2100 Corners (including center of sections and meander Corners)
 - To date approximately \$470,500 has been billed to the County associated with the remonumentation project.
 - Average billed cost to date has been around \$480 per Corner
 - We have seen pricing in other counties for section corner work. Lump sum prices can run close to \$1000-\$1200 per corner.
 - Bolton & Menk continues to work on drafting certificate of locations. Being we are doing full section certs until all corners are found we can't file the document.
 - Looking ahead at 2023 and 2024 we recommend we continue to utilize summer intern staff to collect locations on the easier corners.
 - The complicated corners requiring digs will be worked on as full time experienced staff have time to work on them.
